21 September 2026 | Kampala, Uganda

thinkIT Takes the Lead as Naming and Digital Sponsor for FMU Esports Championship 2026

FMU and MOSAC partner with thinkIT to grow Uganda's flagship WRC rally simulation series and expand digital motorsport opportunities for young competitors.

The Federation of Motor Sports Clubs of Uganda (FMU) and the Motor Sports Association Club (MOSAC) have announced thinkIT as the lead naming sponsor and digital partner for the FMU Esports Championship 2026, Uganda's premier WRC rally simulation championship.

The 2026 championship will once again focus exclusively on WRC rally simulation, bringing together Uganda's growing community of sim racers for a competitive, structured and authentic rally experience. The series will feature multiple rounds, a national leaderboard and a grand finale, showcasing top talent from across the country.

Through this partnership, thinkIT will support enhanced digital systems, stronger branding, greater championship visibility and improved event delivery, building on the success of previous seasons and raising the bar for esports motorsport in Uganda.

FMU, MOSAC and thinkIT share a common vision: to create a clear pathway for young Ugandan competitors to engage with motorsport through immersive digital competition, develop their skills and be part of a growing community that celebrates discipline, innovation and opportunity.

"We are proud to support the championship as both lead naming sponsor and digital partner. This partnership is about building a modern, accessible and exciting platform for the next generation of rally talent."

A New Pathway into Digital Motorsport

The thinkIT FMU Esports Championship 2026 connects motorsport culture, esports competition and youth opportunity, creating a unique platform where Uganda's next generation of racers can develop skill, gain visibility and be part of a growing digital motorsport community.

Building on the momentum of previous seasons, the 2026 championship will feature four rounds of WRC rally simulation, bringing together sim racers from across Uganda for a national leaderboard, thrilling competition and a grand finale.

As the lead naming sponsor and digital partner, thinkIT strengthens the championship with enhanced branding, digital systems, communications and growth initiatives, helping to raise the profile of esports motorsport and create more opportunities for young Ugandans to participate, compete and succeed.

"We are excited to grow esports motorsport in Uganda, attract more young fans and create a clear pathway for talent to move into digital motorsport."
